DYNAMOOV SOFT-CLOSE

Full extension slide 30 kg

- Excellent running characteristics
- Fully synchronised slide technology
- Soft-close damping system
- Stepless self-locking of the drawer when pushed onto the slide
- Integrated height adjustment, tool-free + 3.5 mm
- Optional depth adjustment + 3.5 mm

DYNAMOOV

Technical information

PLANNING DIMENSIONS

Inserting the drawer

Place the drawer on the extended Dynamooov slides and slide in until it audibly engages.

Removing the drawer

Pull out the drawer, actuate the lever of the front locking device on both sides and pull the drawer forwards, away from the slide.

DYNAMOOV TIPMATIC

Front gap adjustment (max. +1.5 mm)

The reliable opening and closing of the drawer depends on the front gap setting (min. 4.5 mm = factory setting). If the front height is greater than 300 mm, the front gap must be increased to the maximum of 6 mm.

Front gap adjustment from above

Front gap adjustment from below

NOTES

Mounting of cabinet members:

The screw recommendations are intended for reference.

Assemblers must ensure that the substrate material is thick enough.
